Your Medical Second Opinion Explained

Medical Second Opinion (MSO) is an international service offering from our business partner, Mediguide USA, that provides a potentially life-altering service by supporting you in making the most informed decisions possible about your diagnosis and treatment options for serious illnesses.

Diagnostic errors on serious illnesses occur more frequently than is readily acknowledged. This is not unique to SA but an international phenomenon, recognised through several new scientific studies.

MSO ensures that diagnostic mistakes are minimised, offering the best possible health outcome for you and your family when major illness occurs.

Mediguide was established in 1997 and their global network of World Leading Medical Research Centres (WLMRC) ensures that you can access the world's leading medical minds for a second opinion review when you are faced with a serious medical condition.

This potentially life-altering service is automatically available to all Cinagi members. The qualifying criteria to activate a review are as follows:

- Availability of a local and recent diagnosis
- You have served your policy's 3 month waiting period (if applicable)
- The condition is not acute, requiring immediate treatment
- An in-person evaluation is not required (eg mental condition)

Once you have activated a MSO with us, a case manager will be assigned to you to assist in collating all your relevant medical records and then uploading these to the WLMRC you have chosen to have the MSO review done. Your results will then be reviewed and assessed by a multi-disciplinary team at the WLMRC, where after they will provide you with a comprehensive written report outlining any changes they have made to the initial diagnosis and their recommendation on the best treatment plan.

You will then be free to either discuss this with your local physician or to consult with a new physician - the choice will be up to you.

Mediguide serves millions of lives in more than 50 countries worldwide and is recognised internationally as the world leader in their field. For more information please visit www.mediguide.com. If you are a Cinagi member and wish to activate a MSO, please contact us on www.cinagi.co.za/contact/.

If the in-hospital medical specialist cover is at 100% of scheme tariff, then the CPL-100 premiums will apply.

Member Portal

To ensure efficient, quick and user-friendly client servicing, Cinagi has developed a bespoke digital member portal for all clients. To access the portal, please [click here](#).

Through this member portal you can undertake the following administrative services:

SUBMIT A CLAIM – Claiming is a quick and simple online process. You will require the following information/documents to submit your claim:

- The relevant account from the doctor or provider
- The claims statement from the medical scheme showing how they have processed and paid for the above account – this can be downloaded from your medical scheme's website/portal
- If you claim relates to a hospital admission, we will need the first 2-3 pages of the hospital account showing the admission/discharge dates, ICD-10 codes, patient name, etc

CLAIM OPTIMISER – if you are required to pay an upfront payment before being admitted to hospital, we have developed the Claim Optimiser, which guarantees the payment directly to the hospital. This means that you do not need to make any out-of-pocket payments and we will pay the provider directly on your behalf. Please note that this service is not available if your policy is still subject to a waiting period and you will need to contact us at least 72 hours before your admission to activate the Claim Optimiser.
